W H F AUGUSTA QUEEN, Lot 31, and MARELLBAR LANCASTER 28th, Lot 32, daughters of Bapton Craftsman selling in this sale.

YOU are cordially invited to attend our First Production Sale, which we hope to make an annual event. We look forward to having you with us on February 3, whether or not you plan to buy. Also, we hope you can be our guests the evening before the sale for an informal buffet dinner, where you will, no doubt, see many old friends. It will be held at sale headquarters, The Holiday Inn, Augusta.

The sale of breeding stock entails a very deep responsibility upon the seller, especially in the case of bulls. A herd's entire future depends upon sire selection, and, if the wrong choice is made, at best the cost is two or three wasted years. This responsibility has been the fundamental thinking in the Boll Weevil breeding program and in the selection of the animals in this sale. They all bear our mark and we would gladly put any of them back in the herd.

We have been fortunate to have had as herd sires Calrossie Ocean Wave, Bapton Craftsman, and Upson Ocean Wave 2nd, plus a cow herd we believe equal to any in the country. This has made the selection for this sale much easier. However, do come, see them and decide for yourself.

The Boll Weevil Story - - -

by Don Longley, The Shorthorn World, Aurora, Illinois

It has always been my feeling that the breed would prosper and expand in direct proportion to the number of superior cattle that were made available to the public. That is why I consider the Boll Weevil sale one of the most important events for the breed in 1962. I visited Boll Weevil in October to help select the cattle for this sale. Every good cattleman will be impressed by the pictures in this catalog. The cattle are even better than these pictures would indicate and must be seen to be appreciated.

On our rounds in selecting these cattle, I was deeply impressed by the sincerity and determination of Barbara Fenwick and manager Hezzie Lyons. Their sole concern was to pick those animals that would make the

best sale offering and that would perform best for their new owners. They were conscious that a first sale offering must be outstanding if a herd is to expect buyers to return year after year. I know how hard it is for them to part with 14 daughters of the great Calrossie Ocean Wave, because he is now dead and there will be no more.

I hope you will study the reference section in the back of this catalog which gives a short history of every female in the cow herd. This will give you a better insight as to how this great herd was assembled, step by step.

Every herd can trace a good measure of its success to a single key transaction. In December, 1958, Mrs. Fenwick purchased the entire W. E.

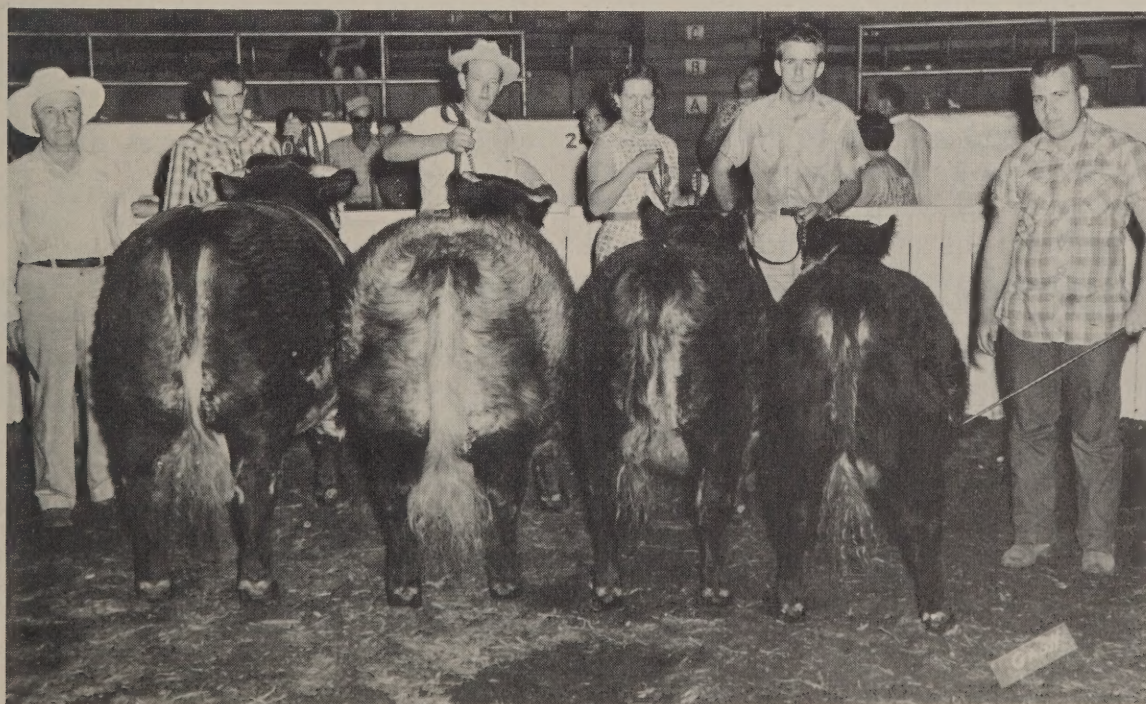

Brawith Betsy 2nd, 1960 International Grand Champion Female. Mrs. Hugh Fenwick at the halter. Sire, Calrossie Ocean Wave.

Below, the get of Calrossie Ocean Wave, shown at the 1960 Ohio State Fair where they placed first. They stood second at the 1961 International.

Giddens herd, of Madison, Georgia, which contained approximately 50 females of breeding age. Many of these were imported and many came originally from the great Maclyn herd established by H. D. McGowan in the early 1950's. There were a number of daughters of the highly successful \$5,000.00 imported sire, Cruggleton Peglers, and of great importance was the sire that came with the Giddens herd, Calrossie Ocean Wave, originally purchased by McGowan for \$21,000 in Scotland. Many of the cows at that time had Ocean

Wave calves at foot or were in calf to him. These included such great females as the 1960 International Grand Champion Female, Brawith Betsy 2nd.

Prior to the purchase of the Giddens herd, Mrs. Fenwick had selected a number of outstanding females and since that time she has purchased the best animals available in North America and Scotland. The uniform quality of the herd is adequate testimonial to the success of the Boll Weevil program and the keen cattle eye of its owner and manager.

Boll Weevil Princess, Reserve Grand Champion Female, 1960 International Congress Sale, sold for \$1050 to Kickapoo Farms, Kenosha, Wisconsin. Sire, Calrossie Ocean Wave. She later sold in the Kickapoo sale for \$2000 to Eldak Cattle Co., Wheatland, North Dakota.

From the outset, Mrs. Fenwick was aware of the importance of cooperating with fellow breeders. Immediately she became active as a consignor to all of the sales sponsored by the Southeastern Regional Shorthorn Association and the South Carolina Shorthorn Association, sending many champions and top sellers to these events. Recently she was elected President of the Southeastern Regional Association.

Convinced that her cattle could stand the test of the stiffest competition the breed could offer anywhere, she began a tour that started at the Illinois State Fair and included a major show every week through the International and on to several later winter shows. Championships were won at every event, and, at the International, in addition to the Grand Champion Female, the get of Calrossie Ocean Wave placed second in competition with the gets of thirteen of the breed's greatest sires.

Mrs. Fenwick has been extremely fortunate in her selection of herd bulls. There can be no question but that Calrossie Ocean Wave will go down in Shorthorn history as one of the great sires of this era. Used in

Scotland by Calrossie, his daughters in the old country are highly valued. Other daughters will be found in the leading herds of the United States and Canada. No Shorthorn bull has had a more profound influence on the breed in the Southeast and today a number of the best herds in this area are headed by Ocean Wave sons.

To further intensify this bloodline, Mrs. Fenwick picked what she believed to be the best son of Calrossie Ocean Wave to carry on in the Boll Weevil herd. This was Upson Ocean Wave 2nd, third prize winner at Chicago, and Champion at many shows. He had been purchased in dam in the Giddens sale by George H. Miller, Thomaston, Georgia. The younger group of sons and daughters of this bull, many selling, are ample testimony to the wisdom of this sire selection.

Seeking the bull to use on Calrossie Ocean Wave daughters was a search that took Mrs. Fenwick and Hezzie Lyons to the leading herds of America. It ended at Whitehall Farms, Poplar Grove, Illinois, with the purchase of the proven sire, Bapton Craftsman. This is the young bull that had been selected by Fred McWilliam in Scotland as the bull to use in the famous Edellyn herd. The dispersion of this herd soon after the bull's arrival saw Bapton Craftsman go to Whitehall at \$4800. When she purchased Bapton Craftsman, Mrs. Fenwick also bought several daughters and a son at high figures, and these are included in this offering. The first calf crop by Bapton Craftsman, exhibited by Whitehall and Boll Weevil, resulted in nine different sons and daughters winning championships or top selling honors at major events.

Continuing to look into the future, late in 1961 Boll Weevil and Acadia Farms, Northfield, Ohio, completed an arrangement where Boll Weevil received a half interest in the famous

Acadia sire, Kinellar Napoleon in exchange for a half-interest to Acadia in Bapton Craftsman.

Personally, if I were putting together a top herd of Shorthorn females at this time, there would be individuals from this sale included in it. Furthermore, buyers can attend with the assurance that there are not just a handful of females that would serve such a purpose, but the quality runs so deep that I believe anyone who sincerely wants one will find the

right buying opportunity. There are bulls in this sale that can head the greatest herds in the land.

CALROSSIE OCEAN WAVE . . . Certainly one of the great sires of this era. He was used extensively by Capt. John MacGillivray of Calrossie and William MacGillivray of Glastullich in Scotland and his daughters were carefully held back in these herds. He was purchased for \$21,000 by H. D. McGowan, Maclyn Plantation, Albany, Georgia, and later went to W. E. Giddens, Madison, Georgia, when he purchased the fine herd Maclyn had established in the early 1950's. He came to Boll Weevil with the purchase of the Giddens herd. Although we wish he could have lived for many more years, we feel extremely fortunate to have had him for as long as we did. Fourteen daughters and seven granddaughters sell in this sale. Actually we should not be selling a single daughter, but this is our way of selecting cattle for this initial event that can make it a success. His daughters are valued members of many of the top herds of the breed and his sons are doing an excellent job wherever they have gone. His most famous daughter is Brawith Betsy 2nd, 1960 International Grand Champion Female. His get placed second at the 1960 International.

*We believe Calrossie Ocean Wave
was the greatest bull brought
to America in the past decade
and this sale represents the
last opportunity to purchase his
sons and daughters.*

BAPTON CRAFTSMAN . . . When we saw this bull and his first calves we knew the search for a sire to follow Calrossie Ocean Wave had ended. This bull was selected originally in Scotland by Fred McWilliam, manager of Thos. E. Wilson's great Edellyn herd as the bull he wanted to carry on. Bapton Craftsman is a full brother to the Glastullich herd sire, Bapton Captivator. He sold in the Edellyn Dispersion for \$4800 to Anthony Petkus, Whitehall Farms, Poplar Grove, Illinois. We purchased him from Whitehall in 1960 at a high figure after seeing his first calves. From this first calf crop developed by Whitehall and Boll Weevil have come nine different champions or top sellers at major events in 1961. His son, Whitehall Battleship, selling, and the several daughters selling will speak for him. After seeing them we believe you will agree that his service on our many sale females bred to him will greatly enhance their value. A half-interest in Bapton Craftsman has recently been sold to Acadia Farms, Northfield, Ohio.

*The many champions and other
outstanding individuals from his
first calf crop indicate Bapton
Craftsman will be a worthy successor
to Calrossie Ocean Wave.*

UPSON OCEAN WAVE 2d . . . This junior sire has a big place in our future plans. The first sons and daughters selling in this sale will show you the reasons. He was a champion on many occasions in 1960. At the 1960 International he placed third in a strong class of 13 which contained the grand champion. He was also a member of our second place get-of-sire at the International. His dam is a grand imported cow that was one of the top females of the Giddens sale selling to George H. At the 1959 International his Get-of-Sire placed second, first in 1960, and second in 1961 . . . no sire can claim a finer record of consistency.

Last fall we completed a deal with Acadia whereby a half interest in Bapton Craftsman went to Acadia and a half interest in Kinellar Napoleon comes to Boll Weevil.

We used this excellent sire and offer seven of his daughters in this sale. Louada Centurian is a full brother to the \$8000 Louada Gambler, in service at Hi-Ho Farms, Phoenix, Maryland.

First prize pair of calves, 1957 International, both sired by Louada Sensation. The bull on the right is Louada Ranger, 1957 International Reserve Junior Champion, exported to New Zealand at a high figure. Louada Sensation was used successfully at Boll Weevil as is evidenced by four of his daughters in this sale.

We would like to call your special attention to the reference section in the back of this catalog, giving a short history of all of the members of the Boll Weevil cow herd.

Cruggleton Peglers. This imported bull was purchased by W. E. Giddens in the 1953 Mathers sale for \$4900. Sons sold later in the Mathers sale brought \$9000, \$4600, and \$3350. Giddens followed a careful program of keeping his best daughters and we acquired them with the purchase of the Giddens herd. They are proving to be excellent brood cows and a number of our sale entries are out of Cruggleton Peglers dams.

BOLL WEEVIL MASTERFUL—The senior bull calf from our show string. He is out of a daughter of that grand old cow, Hillcroft Miss Ramsden. The Miss Ramsden females are great producers. A six months old bull calf, out of a Miss Ramsden heifer, sold in Les Mathers sale for \$3,000. Kickapoo Farms sold a Miss Ramsden daughter for \$2,000. We are retaining the last bull by Calrossie Ocean Wave, out of Hillcroft Miss Ramsden, who is very closely related to this bull. Hillcroft Miss Ramsden is out of the same dam as the International grand champion female, Hillcroft Miss Ramsden 3rd.

BOLL WEEVIL QUEST—This is the junior calf from our show string, who has always stood well up in class. He was second at Kentucky to the reserve grand champion, Oakwood Lancer, and was reserve junior champion at the Southeastern Fair. He is out of Quality Linda, who gives us a good show animal every year. His half brother was reserve champion over all breeds at the 1960 Southeastern Steer Show. A three-quarter sister, Boll Weevil Linda, a heifer from our show string, also sells. There can be no doubt but that this is one of the best bulls we have ever raised. We believe he can carry on the Calrossie Ocean Wave tradition and that he deserves to head one of the breed's top herds.

Corrimony Miss Ramsden 2nd. We paid \$3,000 for her in the Susanna Dispersion and also \$3,000 for her daughter, Susanna's Lady Ramsden. They are the dam and granddam of Lot 7.

THE BOLL WEEVIL COW HERD - - -

A sire may be half the herd . . . but the dam is at least half of the animal that you buy. Every progressive breeder owns a herd sire of which he is proud, but in too many herds there are many females of mediocre quality and plain background. For this reason the members of the Boll Weevil cow herd were selected carefully with attention paid to strong individuality and heritage.

On the following eight pages we present a short synopsis of each of the 80 brood cows in the Boll Weevil herd. Some younger replacement heifers are not included. We feel this is valuable reference material to our customers, because here you will find information on dams, granddams, etc., of the animals selling . . . and also of Boll Weevil bulls and females that have been sold in recent years.

This catalog would not be complete without acknowledgement of the fine work being done by Boll Weevil manager, Hezzie Lyons and his assistants. Hezzie is, without question, one of the leading cattlemen in the cattle business. His vast experience has been invaluable in the selection of the cattle that make up the Boll Weevil herd and we are happy to have the care and health of the herd in such capable hands. Hezzie will be most happy to answer any of your questions about the animals selling.
